Citizenship Process

1. INTRODUCTION CONSULTANT AEGEAN LOCATIONS:

Our advisors will assess your personal preferences and help you choose the most suitable investment option. The lead applicant can also add members to the application, including their spouse, children under the age of 18, and disabled children of any age.

2. PREPARE DOCUMENTS:

You will receive a complete checklist, and will be supported in collecting documents. Our experienced immigration consultants will review all documents to ensure requirements are met.

3. COMPLETE INVESTMENT:

Before proceeding with the citizenship application, investors need to open a bank account in Turkey and complete the investment (property title transfer).

4. SUBMIT CITIZENSHIP APPLICATION:

Investors can apply for citizenship immediately after the residence permit is granted. No physical presence or interview is required during the application process. The processing time for this procedure is 30 to 90 days.

5. RECEIVE TURKISH PASSPORT:

The client is able to get Turkish citizenship in just 90 days, and enjoy all the benefits that come with it. As a naturalized Turkish citizen, an investor wishing to start a business in the UK or the US would have better chances of doing so and could consider relocating along with their entire family later on.

Residence Permit

For a residence permit with a duration of 1 year, a service cost of \$950 per person is required. The service includes health insurance, notary deeds and other government registrations. The whole process will take 1 to 2 weeks.

Citizenship Turkey

Citizenship for foreigners by investment is described in subparagraph A of Article 12 of the Turkish Citizenship Law. Persons who have purchased real estate worth of at least \$400,000 Dollars are able to obtain the Turkish Citizenship. If the buyer is married, his spouse and children under the age of 18 are entitled to citizenship as well.

There is no limitation on the quantity, and category of the immovables to be acquired (residence, office, land, etc.). An official appraisal report should be prepared by an independent appraisal company.

For the appliance of Citizenship, the Turkish lira rate provided by the TCMB is always taken in consideration. First, the foreign currency must be sold by the buyer to the Turkish bank. Afterwards a foreign currency certificate must be obtained, and then the transfer of funds has to be made to the seller's account by the buyer. We will guide the client during this process.

After the purchase process is completed and the title deed is received, an official document which states that the property cannot be sold for 3 years, will be provided to the land registry. A certificate of conformity will be obtained from the Ministry of Environment and Urbanization. After this process, a residence permit will be obtained from the Immigration Administration. The Citizenship application will be made after the residence permit is issued. All procedures will be followed up with a power of attorney that can be given to us.
